

Stowe SPORT

GRADUATE SPORTS COACH Specialism - Hockey September 2021

"I thoroughly enjoy working at Stowe. It has allowed me to build my coaching experience through specialist courses, alongside providing time to coach at Buckingham Hockey Club and participate in the county pathway system. I have had opportunities to tutor in a Boarding House and to become a part-time teacher of psychology."

Dominic Blackmore-Beales (Graduate Sports Coach)

"Stowe has allowed me to combine both professional development as well as personal. I am able to play and compete at my sport whilst completing my masters degree in Sport Business and Leadership and getting involved with all aspects of boarding life. Stowe has a strong community spirit and there is always lots going on which allows you to get experience and develop. I became Under Houseparent and I have thoroughly enjoyed being able to get to know the Stoics as individuals and outside their sports. Working at Stowe provides a fantastic opportunity to learn, gain experience and improve within a beautiful setting."

Ella Jackson (Graduate Sports coach)

For September 2021 Stowe School is looking to appoint a graduate sports coach with a specialism in hockey. We are looking for enthusiastic team players with a love of sport who are equally committed to participation as well as performance, and have the ability to engage and motivate pupils. Stowe runs two terms of hockey in the Autumn and Spring Terms, and both the boys and girls teams play in the Independent Schools Hockey League. An ability to coach a Summer sport would be advantageous.

We welcome all degree subjects and the successful candidate would be expected to assist with the administration of the Sports Department as well as to take on a pastoral role within one of Stowe's Boarding Houses. There will be opportunities to assist with the teaching of PE and Sports Science as well as work with younger pupils who are part of the Stowe Group. The Stowe Group consists of Stowe School, Winchester House Prep School and Swanbourne House Prep School.

The Department is committed to career progression and training. We can assist with getting additional coaching qualifications and attending specialist courses to enhance your coaching C.V. We can also provide time for postgraduate study. Where appropriate additional classroom teaching can be offered and experience also gained in other areas of the School such as our marketing and commercial departments.

Stowe has very close links with Buckingham Ladies' and Men's Hockey Club with training, playing and coaching opportunities available at the Club which is based on site at the School.

Accommodation and full board will be provided.

An application form and full job description may be downloaded from our website stowe.co.uk.

Closing date: 15 January 2021
