April 2017

Dear Parents and Guardians

## **Stowe School Medical Centre Information for New Pupils**

While your child is boarding at Stowe School, their medical care is provided by the School Medical Centre. As it can take some time to obtain their medical records it is necessary for you to complete a Health History Form with as much information as possible.

It is part of your contract with the School to answer this questionnaire fully and to alert the School medical team to any changes in the health or wellbeing of your child during their time at Stowe. This information remains medically confidential and is important to ensure we can offer your child the most appropriate care and support during their time with us. We do not use this information as a screening tool for entry. Please contact the medical team directly if you need to discuss this.

It is very important for us to ensure our pupils are fully vaccinated in line with current UK schedules. Please attach a photocopy of their vaccination history or a printed summary from your current doctor. If your child needs a catch up or booster dose we will be in touch with you to organise this.

Please return the [Health History Form](#) not later than **Friday 16 June 2017** to:

Mrs D Jenkins, Senior Nurse Manager, The Medical Centre, Stowe School, Stowe, Buckingham MK18 5EH

Or by secure email to [djenkins@stowe.co.uk](mailto:djenkins@stowe.co.uk)

**Failure to return the form will mean that we are unable to register your child for routine care with the School medical team.**

Full details of the services offered by the Medical Centre are available in the extract from Handbook for Parents which can be viewed on the [website](#).

### **For Boarding Pupils:**

All boarding pupils will be expected to register with me as their NHS GP. Please complete the [NHS registration form \(GMS1\)](#).

### **For Day Pupils:**

Day pupils can be seen as emergencies at the Medical Centre as a Temporary Resident.

Yours sincerely

Dr Rebecca Pryse
